

Dear Developer,

Display suites are a key selling tool for all new housing developments. The problem is, with a decorating and furnishing price tag of tens of thousands of dollars, beautiful show suites have simply not been an option for many developers.

That is, until now.

Revamp offers an innovative new solution to the display suite problem. With no interior decorator to pay and no furnishings to buy, display suites are finally within the budget of any new home project.

With a Revamp Display Suite Package, you get a dazzling show suite, including:

- Unique furnishings and decorative accessories supplied from our own large rental inventory, so you buy absolutely no furniture or accessories
- Innovative interior design from experts at making a home desirable to potential buyers, so they can actually picture themselves living in the home
- Delivery, set-up, and removal of all pieces

... All at a fraction of the cost of designing a show suite with an interior designer or decorator.

Plus, Revamp takes care of every aspect of your display suite, from the initial design planning, to inventory selection, to project management and final set-up, so you don't have to give your suite a second thought.

Here's what some of the developers and realtors we've worked with have to say about Revamp:

"Thank you for the great job you did in furnishing and merchandising. I believe that I would not have achieved the price I did without your help, nor would I have sold it so fast. I appreciate your effort in doing an excellent job in all aspects."

*Randy Shier, President
The Mission Group*

"Their service goes well above and beyond the standard "designer" as it encompasses all aspects from paint colour to furnishings to those all important smaller finishing touches. It is a definite benefit to have someone with this dedication to the finished product involved."

*Maria Werbicki, Realtor
Re/Max Select Properties*

"Your attention to style and detail was exceptional, and it was no wonder that there were so many parties interested."

*Wendy Toban, Realtor
Re/Max Crest Realty*

You can find more testimonials, and pictures of our work, on our web site: www.RevampConcepts.com. For more information about our services, or to talk about how we can design a custom display suite for your next project, please call us at 604-738-2675.

Sincerely,

Michael McNamara and Rien Sharma
Revamp – Display Suite Division
